Governments have slashed funding for TAFE.

- Public money has been wasted on private for-profit providers offering courses of untested quality at inflated prices to increase their profits.
- Funding cuts mean TAFEs have to increase fees for their students too.
- Morrison’s cuts to TAFE affect students, teachers, our TAFEs and our whole community.

Australia needs a high quality TAFE system. We need TAFE to continue to serve the needs of students, workers and employers – not just today, but for the future.

Vocational education at TAFE must be affordable and accessible to everyone. The government must guarantee that a minimum of 70% government VET funding goes to TAFE. This will ensure TAFE’s future.

Stop Morrison’s TAFE cuts! Government is destroying TAFE.

IT'S TIME TO SUPPORT TAFE

To rebuild TAFE and keep it strong political parties must guarantee a minimum of 70% government VET funding goes to TAFE.

Guaranteed funding will mean TAFE can continue its work and provide education and training right around Australia.

Governments must continue to crack down on unscrupulous private providers to ensure that funding goes to vocational education, not to super profits for shonky RTOs.

It’s time governments committed to fixing the vocational education sector by supporting TAFE.

WHY WE NEED TAFE

“TAFE is a public and community asset. Taking TAFE away from public ownership and gifting its assets to private for-profit quasi training organisations will lead to more youth unemployment, skills shortages on a grand scale, and social problems. Keep TAFE strong and vibrant. It delivers quality education, with dedicated teachers who really care about the students.” JULIENNE, NSW

“TAFE provides a critical service to the community. We must protect it. It belongs to us, not the government.” PAUL, QUEENSLAND

“I’m not sure where I would have ended up if it wasn’t for TAFE. Giving real life tools for the real world, this sector deserves all the support it can get.” COREY, TASMANIA
